								The normal surplus which may be expected in future, &c., the average difference between the average ordinary expenditure calculated on the figures in columns 13 to 16 and 17 to 19, respectively.	Remarks
								NIL.	(2) There is an important variation in the expenditure of 1918-19. This is owing to Government grant of Rs. 50,000 for water-works scheme.

NOTE.—The receipt side of the account should show ordinary revenue separately from extraordinary receipt. Receipt from loans or deposits or the investments of sinking funds as well as items of abnormal character, *e.g.*, large grants (other than ordinary) for schemes of local improvements, should be shown separately from ordinary revenue. On expenditure side interest on debt and any payments to a sinking fund should be included in ordinary expenditure and all expenditure from loan funds and repayment of advances as well as expenditure from large grants (other than ordinary) for schemes of local improvements should be shown separately. In column 21 a full explanation should be given of all important variations, if any, in the amount of revenue and expenditure. Further details should be given as required on the reverse.

In addition to the details required on the reverse, clear information should be given below under the following heads :—

(*a*) If the ordinary surplus is sufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.	A water tax will yield sufficient amount to meet the charges of proposed loan. Rupees 24,000 will be the expected income which will be sufficient to meet both the remaining and loan charges.
(*b*) The reserve of taxation or other possible means of increase in the revenues of the municipality.	Installation of water-supply scheme will possibly improve the sanitation of Krishnagar, so people will build new houses which will go towards the increase of income.
(*c*) A statement of all outstanding loans specifying in respect of each loan the date when taken, the purpose very briefly, the amount, the annual charges involved, and the amount still payable.	There is no outstanding loan.
(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.	The receipt of water tax on the whole will show a tendency to rise after completion of water-works scheme, as it is expected many people will come back to their ancestral houses who have left for malaria, etc.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 1249M.—The 17th April 1920.—In pursuance of section 37F. of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), it is hereby notified for general information that the scheme submitted by the Commissioners of the Budge-Budge Municipality, in the district of the 24-Parganas, for providing flood flush drainage of that municipality has been approved by the Governor in Council and that the particulars of the said scheme are as follows:—

24-Parganas.

(*a*) The town of Budge-Budge is situated on the left bank of the river Hooghly and lies within its tidal reach. During the rains the tide rises as high as 20·00 and falls to as low as 6·00 and the ordinary tide is about 17·50. The average ground level of the town ranges between 17·00 and 21·00 and there is a protective embankment with sluices along the bank of the river. The roads are mostly embanked and high, except in a few places the road-side drains are deep and wide. There are innumerable insanitary tanks and ditches within the town. A surface drainage scheme was prepared by the Sanitary Engineer, Bengal. In this scheme the silt-laden water introduced through sluices when the river is in flood circulates through the low places in the town, and drains out the water when the river is low. Provision has been made for the construction of the necessary regulators and sluices and for improving the bed of the existing drains, making them pucca where necessary.

(*b*) The estimated cost of the scheme is Rs. 28,070, excluding the cost of acquiring lands on the side of the drains amounting to Rs. 1,178.

(*c*) The estimated cost of the maintenance is Rs. 250 per annum.

(*d*) The sum of Rs. 29,248 on account of the cost of the scheme will be met as follows:—

	Rs.
Municipal Fund	17,396
Contribution from Government	9,500
Riparian mills under Messrs. Andrew Yule & Co.	2,352
